

RAISE THE ATTAINMENT OF **PRIMARY SCIENCE**

FREE SCIENCE TRAINING FOR ALL STAFF

PowerPoint Presentation

‘HOW TO DELIVER OUTSTANDING SCIENCE INVESTIGATIONS’

Designed for the science coordinator to train all staff and help non-specialists to deliver the current Science programme of study.

Good delivery of investigative Science will be a major component in ensuring that your school achieves the best Ofsted category for Science.

An inspection team will be looking for:

- **Suitable facilities for the delivery of investigative Science**
- **Equipment necessary to deliver investigative Science**
- **Staff who can plan and deliver investigative Science**
- **An assessment scheme for practical Science**
- **Good leadership**

This presentation is free when the school purchases a Mobile Primary Science Workstation that turns any classroom into a Science lab. It comes complete with a Bunsen burner, sink, electrical outputs, equipment and a complete investigative Science course, which includes an assessment scheme. Everything you need to meet all the requirements of Ofsted.
